

# How to use iNaturalist

Exploring and sharing observations from the natural world.

## See it

When out and about, keep your eyes peeled for wildlife - its everywhere! Everything counts - from pesky pigeons to fantastic foxes, and all the plants in between the paving stones! Everything is important.

## Snap it

Take a photograph using the "Observe" icon at the bottom of the screen.

Top Tips :

- Only photograph the specimen you want to record.
- Make sure your location is enabled on your smart phone, or make a note of where you are!
